

# INJEKSJONSPUMPER

---

Produktnummer: .

**WIWA INJECT 2K 14015 GX**

## WIWA INJECT 2K 14015 GX

---

**15:1/144ccm**

Highly advanced technology for injection and pressure grouting applications with acrylate gels.

With the newly developed 2K-Inject 25015 WIWA not only demonstrates its capability in injection and pressure grouting technology, but with the highly developed equipment technology also professional competence and environmental consciousness.

### Technical data

Pressure ratio	15:1
Output per cycle	144 ccm
Max. inbound air pressure	6.5 bar
Max. operating pressure	120 bar
Mixing ratio	1:1
Weight approx.	26 kg

### Order numbers

N/G	0669323
N/F	0670489

N - Normal steel galvanized, not stainless, R - stainless, RS - Stainless steel, rust and acid resistant.

B - On container, D - on tripod, F - on chassis, G - on rack, GZ - With feed funnel, W - on wall mount.
