

INJEKSJONSPUMPER

Produktnummer: .

WIWA INJECT 2K 14025

WIWA INJECT 2K 14025 GX

WIWA INJECT 2K 14025 GX

Injeksjonspumpe 25:1

Highly advanced technology for injection and pressure grouting applications with acrylate gels.

With the newly developed 2K-Inject 14025 WIWA not only demonstrates its capability in injection and pressure grouting technology, but with the highly developed equipment technology also professional competence and environmental consciousness.

Technical data

Order number	0669067
Designation	2K-Injekt 14025 GX
Pressure ratio	25:1
Max. inbound air pressure	8 bar
Max. operating pressure	200 bar
Mixing ratio	1:1
Weight approx.	55 kg

N - Normal steel galvanized, not stainless, R - stainless, RS - Stainless steel, rust and acid resistant.

B - On container, D - on tripod, F - on chassis, G - on rack, GZ - With feed funnel, W - on wall mount.
