

2-KOMPONENT ANLEGG

Produktnummer: 02-0639856

WIWA DUOMIX 333 GX PFP

WIWA DUOMIX 333 GX PFP

61:1/329ccm

WIWA plural component heavy-duty coating system

In close cooperation with leading paint manufacturers WIWA undertook the further development and optimization of its highly established, powerful plural component application system. The latest development stage is the smooth processing of an established intumescent material. After successful testing International Coatings Ltd. awarded the WIWA plural component system 333PFP with an equipment certificate.

Technical data

Pressure ratio	61:1
Output per cycle	329 ccm
Mixing ratio	2.33
Weight approx.	1100 kg

On request the DUOMIX system can be outfitted to meet ATEX Zone 1 requirements.

Application areas

- Offshore industry
- Oil and gas industry
- Building and corrosion protection
