WIWA FLEXIMIX 2 PROFESSIONAL GX

WIWA FLEXIMIX 2 PROFESSIONAL GX

Quick colour changes, an economical way to increase your capacity

Blue, strong, compact – this is the appearance of the new WIWA FLEXIMIX II PROFESSIONAL. With a permissible spraying pressure of up to 460 bar and a max. capacity of more than 24 litres, this FLEXIMIX II version is predominantly used in large-scale projects with various requirements. This powerful and robust system is most suitable for the dosing and application of low to medium viscosity plural component material, even products with short pot life. For coating materials with extremely high viscosity these systems can be optimally equipped with material flow heaters or other heating equipment. The extensive range of WIWA accessories enables perfect solutions, also for your field of application.

Volumetric mixing ratios 0.5:1 to 17:1

Pressure ratio 32:1 to 71:1

Maximum operating pressure up to 460 bar

Controllable components up to 4

Application areas

- Automatic and manual coating systems
- Furniture industry
- Industrial coatings
- Machine and vehicle construction
- Steel and hall construction
